

Heading 1

Heading 2

Heading 3

Heading 6: Formatting the text

This is a paragraph. Any text may be **bold**, *italic*, underlined, ~~strikethrough (deleted)~~.

The text may also be **marked (highlighted)**. And this is a piece of something looks like an inline code inside a regular paragraph.

You can use superscript (X₂) or subscript (H²O) symbols.

And you can add hyperlinks like [Markdown Guide](#), footnotes¹ (LINE BREAK) and date/time.²

See also other other add-ons.

Blocks of text

Lists are ordered:

1. First
2. Second
3. Third

or unordered:

- Bird
- Chat
- Dog

Definition list:

Frau

weiblicher erwachsener Mensch

Ehefrau

This is a citation (blockquote).

And code block looks like with a code language definition:

```
/python/
```

```
print("Hello, World!")
```

and without it:

Some text.

Product	Qty	Price
Apples	2	%13.00
Bananas	3	%11.50
Cherries	1	%14.00
<i>Total</i>	6	%18.50
